BIOGRAPHY

MYTHOOS is the masked schranz producer of No More Silence™. Born in Iran in 2001 and based in Türkiye since 2016, he picked up the electric guitar at the age of eight, grew up on metal, and stepped into media and production in 2019. By 2022 his focus had shifted entirely to electronic music — schranz and hard techno above all.

His sound blends old-school schranz culture with new-wave energy: pounding, rigid and built for the peak. After professional production training in 2024 he released his first tracks on Neu Gravity in July 2025, followed by releases on DSR Digital and the 2026 album “L’ombre de moi”. His tracks have been played by Kobosil, Luciid, Denis Dekay and SOLYD, and downloaded by artists including VENDEX, Psychotik and Schranz Movement.

For MYTHOOS the vision is visual as much as sonic: a strong stage presence, a distinct aesthetic identity and the ambition to stand among the new generation of schranz and hard techno.
